    3D Technology in the Classroom
    Integration of Apple TV in SMART-Classrooms
    (For using iPad as an alternative teaching tool.)

From: Technology Advisory Committee [mailto:TAC@triton.edu] On Behalf Of H-Espino
Sent: Friday, November 16, 2012 11:24 AM
To: Technology Advisory Committee
Subject: [---] FOLLOW-UP: Invitation- 3D Technology

Many thanks to everyone for attending the TAC technology presentation last Wednesday and of course the biggest thanks of all goes to Dr. Gabriel E. Guzman for facilitating. We had a good crowd over 30 of you took the time to attend. A lot of you expressed great enthusiasm for what was presented and we want to hear from you. Please send us your feedback: we want to know if a “Visual Learning Lab” has a place in your discipline, all your comments and questions are welcome. As a final note the TAC (Technology Advisory Committee) meets every second Wednesday of each month, our next meeting is on December 12 at 2 pm in the Library and is open to everyone.

- Purpose/Function: (extract of a September 2007 meeting agenda)
  Develops and advises on IT policy, shares technology information and reviews technical plan.

Mission?
The Technology Advisory Committee (TAC) supports the instructional and administrative mission of the College through the appropriate use of computing resources and technology. (TAC is an ad-Hoc Committee of the Academic Senate).
