Road and Lot Closure Description

Beginning Wednesday, August 21, 2013 – Friday, November 1, 2013, Triton College will perform the 1st phase of a multi-year asphalt pavement replacement project on the west campus. This 1st phase includes the re-pavement of the Hemingway Road, main college entrance (see map) from 5th Avenue to the stop sign at the P Building and the re-pavement of the Visitor Lot in front of the B Building.

Parking Access
There will be limited access to parking lots through the Hemingway entrance and we strongly encourage everyone to utilize the three North entrances when possible. The Hemingway entrance will only allow incoming traffic during the construction phase. The three North entrances have been marked as “Alternate access to Campus” with red arrows.

Bus Routes
The Pace Bus drop off/pickup location at the front of the B Building will be relocated to the front of the I Building (Cernan Center) for the duration of this phase of the project.

As slow traffic during this time is anticipated, please allow additional time for arrival and departure to and from campus. We appreciate your patience as we continue to enhance our campus for the safety of our students and the Triton College community.
