Nursing Program Goals

Program Goals:

The Triton College Nursing Program will serve the community by providing access to an accredited program that uses multiple resources to foster academic success, as well as to promote continued personal and professional growth.

1. The program will serve the community by providing access to an accredited nursing program which grants eligibility to apply for practical and registered nurse licensure.
2. The program facilitates and promotes the success of admitted students through exploration and utilization of multiple resources to promote program completion.
3. The program supports continued personal and professional growth of its nursing students through encouraging participation in continuing education licensure.

Program graduates will develop the necessary knowledge and skills to competently practice as a professional nurse in variety of roles.

4. Program graduates will have acquired the necessary knowledge and skills to incorporate the nursing process with the individual as co-participant, to prevent or adapt to health problems across the life span while observing legal and ethical standards of the profession.

5. Program graduates will have acquired the necessary knowledge and skills to collaborate with health team members and integrate ongoing research and information technology to support clinical decision making.

6. Program graduates will have acquired the necessary knowledge and skills to function as caring providers and managers of care, utilizing teaching and communication principles and critical thinking to provide therapeutic nursing interventions based on skilled nursing assessment and evidence-based practice.

Program graduates will be prepared to meet licensure standards, obtain employment in the nursing profession and value the quality of the Triton Nursing Program.

7. Program graduates will be eligible for the NCLEX appropriate to program level, with a pass rate equal to or above the standards established by the Illinois Department of Financial and Professional Regulation.

8. A minimum of 80% of the program graduates seeking employment will find employment following successful completion of eligible NCLEX.

9. Program graduates will express program satisfaction at each level of preparation.
