

Melanie Monge-Navarro, Academic Advisor

Assigned Programs:

- Diagnostic Medical Sonography
- Vascular Technology
- Horticulture (Horticulture, Grounds Maintenance, Greenhouse Grow, Pesticide Applicator, Sustainable Agriculture)

My educational background: Graduated with a Bachelor's degree from Dominican University and earned a Master's degree from Elmhurst University.

My professional background: I began working at Triton College in 2015. I have been fortunate enough to work in various departments throughout campus, such as the Welcome Center, Records Department, Health Careers, and now the Advising department.

My advising philosophy: As an academic advisor, I am committed to helping students navigate the challenges they face in both their academic and career paths. My advising sessions are designed to provide you with the knowledge and resources you need to plan your academic and career goals. Ultimately, my goal is to create an environment that is inclusive and supportive, making sure that every student feels valued, respected, and understood. I look forward to meeting and assisting you during your time at Triton College!

Fun fact: One of my favorite hobbies is baking. Some of my favorite things to bake are biscotti and different types of breads.
