I attached the sign in sheet, there were 4 of us that showed up. We discussed who could be a possibility for taking over as chair of the committee. The main issue appears to be the people who may be interested already have several representatives from their department on Senate and so one of them may have to give up their seat, which isn't ideal. Justyna and Selma said they are going to get in touch with you and discuss what the goals moving forward for the committee would be if one of them were to step up.
