

With the conclusion of the FY15- FY21 Strategic Plan, I am pleased to share that Triton's initiatives to increase college readiness, improve college completion, and close skill gaps have been operationalized across the college. The outcomes of these three focus areas over the last seven years were successful due to the leadership and efforts of many in our campus community. I extend appreciation to all the leaders and contributors of the strategic plan. The final report on achievements and highlights of the last seven years is now on the strategic plan portal [page](#).

In celebration, please join me on Wednesday, July 7th at 2 pm under the pavilion for a cool summer treat. Encourage a co-worker to join you.

With the sunseting of the seven-year plan, we are now beginning the journey of the next three-year strategic plan, which launches tomorrow, July 1. The new plan consists of three institutional goals that reinforce our mission of valuing the individual, educating and serving the community. They focus on:

- Teaching and learning (Goal 1),
- Diverse, equitable, and inclusive employee engagement (Goal 2), and
- Strengthening community relationships (Goal 3).

Leaders of each of the three goals have already started working with their individual committees to implement actions to advance the goals. Details of their work and the strategic plan can be found in our new strategic plan [brochure](#) and on the Strategic Plan [webpage](#).

The success of our new strategic plan involves the engagement of the entire campus collectively moving forward to improve student success. I encourage you to learn of our progress on the plan through regular updates on the website and shared regularly by the goal leaders at Academic Senate, College Council, and Administrators Meetings. Together, we will continue to fulfill our mission and demonstrate our shared values for our students and each other.

President Moore
