

# EXPERIENCE UNLIMITED GROWTH POTENTIAL

Under the recent stay-at-home order, careers in landscaping and greenhouse operations were considered essential. Furthermore with the recent legalization of recreational cannabis in the state of Illinois and the resulting shortage in supply of product, many growing operations are expanding. These certificates prepare a student to quickly enter these important career fields.

## Pesticide Applicator Certificate

This program is designed for learners seeking qualification for employment as a pesticide applicator in the horticulture and landscape industries and prepares learners for the Illinois Department of Agriculture Commercial Pesticide Applicator Exam. This certificate can be earned along the way to Greenhouse Grow Operations allowing learners access to employment opportunities.

Semester One (Fall – 6 credits)

HRT 127 Entomology: Insects, People and Plants	3 credits
HRT 128 Plant Pathology	3 credits

## Greenhouse Grow Operations Certificate

This program is designed for learners who wish to obtain gainful employment in a greenhouse growing operation. This program provides students with the training and necessary background to pursue a career in the cannabis industry, urban food production, and ornamental, tropical and herbaceous plant production.

Certificate highlights:

- Achievable in two semesters (just one additional semester after Pesticide Applicator Certificate).
- Stackable into an associates degree.
- Qualifies for federal financial aid.
- Can be completed while working full-time.
- Convenient – Nighttime and online classes available.
- Affordable.
- Begin working towards your new career now!
