Triton College Hosts “Free Robotics for Youth”

RIVER GROVE, Ill. -- Triton College is hosting “Free Robotics for Youth,” on Saturday, Nov. 12, in the Library (located in the A Building), from noon-3 p.m. The event is free and no registration is required. Materials will be provided that are also free of charge.

Children ages 6-12 are invited to Triton College to build and learn about robots! Kids in attendance will be building a working Lego robot. Triton College’s Engineering Technology Department’s “expert builders” will be there to help. Families with younger-aged children should supervise their kids during the event.

All families are invited to learn about one of Triton’s newest programs, Mechatronics (robots), while the kids are building their robots.
