

COVID-19 Guidelines

- 1.** Please do not come to campus if you are sick or have tested positive for COVID-19.
- 2.** Report positive cases to Laura Hill, RN, by email laurahill@triton.edu or call **Ext. 3051**. Do not report any positive cases in person to the Nurse's Office.
- 3.** If you are experiencing symptoms, such as a fever, stay home and get tested. Home tests are accepted.
- 4.** If you are in close contact with someone who tests positive, you do not need to quarantine as long as you remain symptom free. You do need to mask for the next 10 days while on campus and it is advised that you test five days after exposure. If you develop symptoms after exposure, please notify Laura Hill, RN, and stay home.
- 5.** The current quarantine and isolation guidelines for those that test positive or symptomatic after exposure are:
 - a.** Stay home and isolate for five full days (the day you test positive is day zero).
 - b.** If you have improvement of symptoms and have been fever free without the use of fever reducing medications (Tylenol/Ibuprofen) for 24 hours, you may end your isolation/quarantine on day six.
 - c.** You are required to wear a well-fitting mask while on campus from day six to day 10. If you are unable to wear a mask, you will need to stay home until day 10.
 - d.** Reminder, you may continue to test positive for several days or weeks, a negative test is not required to return to campus. As long as you are fever free and have improvement of symptoms, you can return on day six.

Please do not hesitate to call Health Services @ Ext. 3051, with any questions.
