

Directions for MyMathTest

If you are trying to place OUT of Mat 045 and into Mat 055:

1. Purchasing MyMathTest:

- Go to www.mymathtest and click on **buy now**. Using a credit card, pay \$10 and buy access to MyMathTest .
- On the last page of the process, print out your registration. It will list your log-in name. Write your password on that page and keep the page for future reference.
- The program is good for four months.

2. Logging into MyMathTest:

- Go to www.mymathtest and click on **Log in**. Using the user name and password you created to purchase the program, log in.
- The program ID you will enter is XL0S-G13Y-401Y-2EV2

3. Using the program:

- Go to **take a test**. Pick a topic from the topics listed (starting with  [Whole Numbers Practice](#)) and take a test. Pick the topic or topics in which you think you are weak. If you're not sure, take all of the tests. You may use a calculator. Once you have taken one or more tests, a study plan will be created for you.
- Go to Study Plan and click on  **Show What I Need to Study** . This will tell you the topics you need to study/work on. If you click on a section, problem numbers will appear and before you start the problems, you can watch a section video. Once you start the problems you will be able to use “Help me Solve This” or “Show me an Example.”
- Once you are online, there is an instructor who will answer any questions you have.
- Once you have completed the study plan for a given topic, retake the test. Once you have scored 100% on the pretest, you have mastered that topic.

GOOD LUCK!
