

Make shopping easy and avoid the hassle!

## Pre-order Star Store souvenir bags for all your students from the Cernan Earth and Space Center.

- Must call at least a week before date of field trip to order.
- Choose from a variety of topics: space, astronauts, rocks, and dinosaurs.
- Choose from a range of prices: \$2, \$3, and \$5 bags.
- The selection of items in each bag costs more individually than the pre-order bag price.
- Tax is included in the pre-order bag price making for easy math.

**\*What on Earth is Lunar Soil Simulant?**  
 Lunar regolith simulant is a terrestrial material synthesized in order to approximate the chemical, mechanical, and engineering properties of, and the mineralogy and particle size distributions of, lunar regolith.[1] Lunar regolith simulants are used by researchers who wish to research the materials handling, excavation, transportation, and uses of lunar regolith. Samples of actual lunar regolith are too scarce, and too small, for such research.

Text appearing on the barrel of the lunar simulant pencil: Lunar simulant is used by scientists and engineers in plant growth and soil research. Astronauts collected lunar soil that looked like this during the Apollo Moon missions.

If you have suggestions for other souvenir bags we should offer or you want to create a custom bag, please let us know. Just email [cernan@triton.edu](mailto:cernan@triton.edu) with your recommendations or requests.

To place an order or ask questions email [cernan@triton.edu](mailto:cernan@triton.edu), or call (708) 456-0300, Ext. 3372.
