

Behavioral Science Colloquia Fall 2022

College Education: Is It Even Worth It?

Wednesday, Nov. 16, 2022

1:30 p.m. • Library Main Floor

Is education a right? Is it a privilege?

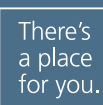

How much should higher education cost?

Is a person's education an advantage to the individual
or is it beneficial for society as a whole?

In a time when the cost of higher education skyrockets while middle-class income employment requires a college degree, the Behavioral Science Department invites you to discuss the benefit and the cost as well as the personal experiences of those who pursue a post-secondary degree.

Please join some of the graduates of the Behavioral Science Department
in a discussion of their academic experiences after Triton College.
