Additional Information about the TEAS update

1. What test do I need to take?
If you are taking the test prior to August 31, 2016 you will need to study and test on the TEAS V exam. If you are testing on or after August 31, 2016 you will take the new ATI TEAS.

2. What is the difference between the two tests?
The ATI TEAS will be similar in difficulty level to TEAS V. Content updates were made to align with current education standards deemed important for entry level health science applicants to possess.

3. Can I use a calculator?
The ATI TEAS will allow for the use of a four function calculator. Please do not bring your own, as the calculator will be provided at the testing site. Calculator use is not allowed on the TEAS V.

4. When is the last TEAS V testing session at Triton College?
The last TEAS V testing session at Triton College is scheduled for August 19, 2016 at 9:00 a.m. The next available TEAS session at Triton College will be the new ATI TEAS and is expected to be scheduled for early September 2016.

5. What study materials should I use?
If testing before August 31, 2016, it is recommended to use TEAS V preparation materials. If testing after August 31, it is recommended to use ATI TEAS preparation materials.

(Because of the content updates that occurred for the ATI TEAS, the TEAS V preparation materials will not provide the tester with a comprehensive overview of the topics assessed on the ATI TEAS.)

6. Will ATI TEAS preparation materials be available at Triton College?
Triton College is in the process of securing ATI TEAS preparation materials. They are expected to be available by September 2016.

7. What score do I need to achieve?
You will need to check with the health science program you are applying to for the required TEAS score for admissions.
